

# THE MENTALISM OF DEVINHENDERSON

**WHAT IS MENTALISM?** Simply put, Mentalism is using the mind to accomplish things out of the ordinary. This is not a magic show – it is a display of astonishing, psychological feats. However, Devin claims no supernatural powers; in fact, anyone can accomplish these feats with enough practice, perseverance, and years of experience.

To blindfold himself, Devin secures two half-dollars over his eyes with multiple layers of duct tape. While blindfolded, Devin is able to tell spectators what objects they have pulled out of their pockets or purses. He is also able to reveal the domination of a bill taken from the crowd, as well as the entire serial number...while still blindfolded! Devin then proceeds with revealing audience members' deepest thoughts, from childhood nicknames, to birthdays and anniversaries, to funniest memories, to ATM pin numbers!

Furthermore, while a spectator is holding on tightly to their own watch, Devin is able to use his mind to move the hands of the watch to a time specified by the spectator. At the conclusion of the show, a sealed envelope reveals that weeks prior to the performance, Devin was able to predict a random event that would happen during the course of the show.

This presentation is highly entertaining, comical, and heavy on audience participation. If you want to absolutely blow the minds of your employees or clients, this is the show for you.

It has been over a month since our event, and our employees are still talking about Devin. We recommend him to anyone wanting to enhance a company or personal event.
